STOLport

The Disney World STOLport is located on Walt Disney World Drive just south of Seven Seas Drive.

The two airlines serving the STOLport are Executive and Shawnee Airlines. Both airlines are using the Canadian built DeHavilland DHC-6 Twin Otter. The Twin Otter is a 19 passenger twin-engine turbo-prop. It has a crew of two. Service is provided between the STOLport and major cities in Florida with interline connections to anywhere in the United States and throughout the world. The STOLport hours of operation are 8:30 a.m. to 8:30 p.m.

The only aircraft authorized to land at the STOLport are those whose owners have contractual agreements with Walt Disney World Company.

Transportation by a minibus is provided for arriving guests to the Hotels or the Magic Kingdom and return transportation is also available for departing flights.

Construction of the permanent STOLport terminal is to begin in January, 1972, and completion is expected in the Spring of 1972. The terminal will include passenger lounge, baggage rooms, control center, and offices.
